

# Rubber Sheet Roll

## TECHNICAL DATA SHEET

**HIGH TEMPERATURE SILICONE RUBBER**

**HIGH TEMPERATURE, RESILIENT**

**SOLID RUBBER, SYNTHETIC MATERIAL.**

### HIGH TEMPERATURE SILICONE RUBBER - Technical Specification Data

**HIGH TEMPERATURE SILICONE RUBBER** High temperature silicone sheeting is designed to be used in applications where very extreme temperatures are required for extended periods of time. This material is Extreme High & Low Temperature Resistant, has great UV / Ozone Resistance, Non-Toxic, Chemically Inert, Low Compression Set and is Fungus Resistant.

|                           |                      |
|---------------------------|----------------------|
| <b>COLOR:</b>             | ORANGE, RED OR BLACK |
| <b>SURFACE:</b>           | SMOOTH               |
| <b>TEMPERATURE RANGE:</b> | - 60° F TO 525° F    |
| <b>TENSILE:</b>           | 1000 PSI             |
| <b>DUROMETER:</b>         | 50A NOMINAL          |
| <b>ELONGATION:</b>        | 300 %                |

| ADHESIVE DATA      |                        |
|--------------------|------------------------|
| <b>THICKNESS</b>   | 5 MILS                 |
| <b>SURFACE</b>     | RELEASE LINER ONE SIDE |
| <b>TEMPERATURE</b> | 300° F                 |
| <b>COMPOSITION</b> | SILICONE               |
| <b>FDA</b>         | NO                     |
